The student, in this circumstance, will formulate the thesis in co-tutorship under the supervision of at least two professors who belong to two different partner universities and he may also benefit himself of the internship tutor supervision. In this circumstance the thesis will permit 20 CFU / ECTS (as 10 CFU / ECTS will be acquired through the internship).
4. The degree thesis will be formulated during the fourth semester and will be evaluated in the way prescribed by the regulations and regulations of the partner university that it has been chosen for the fourth semester (the regulations can be consulted at the links indicated in art. 13).

Part Three - Provisions relating to student career

Art. 15 - Criteria for the recognition of duly certified extra-university knowledge and skills

The Department Council (with its own resolution subject to the opinion of the referring professor and at the request of the student) can validate, for a maximum of 12 ECTS (total in the five-year period, i.e. three and two years), pursuant to art. 14 of Law 240/2010:

- a) knowledge and professional skills individually certified in accordance with current legislation on the subject;
- b) other knowledge and skills developed in post-secondary level training activities that a University has taken part in the design and implementation.

The recognition must be made exclusively on the basis of the skills demonstrated by each student, so the Department Council will examine from time to time the possible opportunity to make a consultation with the students to verify, in front of a specific commission, the congruence between the credits of which need validation and the knowledge and skills that they actually have.

The Department Council can validate, for a maximum of 6 credits, the performance of sports activities certified by the competent authorities (the CUS Pavia), in the following terms:

- Sport practiced at Olympic and Paralympic, world and European level: up to 6 CFU;
- Sport practiced at Italian level and intermediate categories: up to 3 CFU;

- Qualification in the "medal zone" at the University Championship, so the performance of competitive activities for the sections of the CUS Pavia, in the context of competitions at regional and national level too: up to 6 CFU. It is granted to High-level student-athletes the opportunity to agree with the teachers ad hoc appeals in the episode of concurrent sporting commitments (competitions, training and related travel).

Art. 16 - Criteria for the recognition of the credits acquired

1. The Department Council decides on the recognition of the credits acquired: upon request submitted by the student (in accordance with the procedures and times provided for in the regulations in force) and after analyzing the associated documentation.
 - a) in the circumstance of enrollment in single courses
 - b) in the circumstance of transfer from another university, transition from another study course or performance of parts of educational activities in another Italian or foreign university
 - c) in the circumstance of transfer or passage of the student among study courses of the same class
 - d) in the circumstance of a transfer or passage of the student between courses of study in the same class (in this circumstance, the amount of credits relating to the same scientific-disciplinary sector directly awarded to the student can not be less than 50% of those already awarded)
 - e) in the circumstance of a career made by a student who has already completed a degree at the University or in another Italian or foreign university and who requests, at the same time as enrolling, the abbreviation of studies
 - f) in the circumstance to have supernumerary credits (compared to 180 under the law), acquired in the first level degree course (at the University or at another Italian or foreign university).
2. The Department Council, on the basis of the recognized credits, will decide on the possible shortening of the course.
3. It is not defined as a period of time validity of the credits acquired within the study courses. Credits acquired, in previous careers, by students who have lost their student status (for giving up on their studies or for not having taken exams for the number of consecutive years required for by the law in relation to the type of study course) can be validated with a specific resolution of the Department Council if the Department recognizes the non-obsolescence of the related training contents.

Art. 17 - Next years' admission

In the circumstance of transfers, passages, acknowledgments (as regards art. 16), the enrollment for the second year of the course is allowed, subject to the examination of the ECTS / CFU received in the previous career by the Global Academic Board.

Art. 18 – Certifications

Language certifications are required exclusively for the purposes of admission to the master's degree course as illustrated in art. 6 paragraph 3 of this document.
